Since 1975, McDermott Handcrafted Cues has consistently raised the industry standard for what billiard players expect from a high quality pool cue. McDermott products use the latest technology in our state-of-the-art facility, along with the finest materials in the world. In 35 years, McDermott has grown into 12 brands that lead the billiard industry in performance, quality and service.

### OUR INNOVATION

We like doing things that have never been done before. We're inspired by the thought of introducing new products and technology. Driven by the challenge to develop better performance, McDermott is dedicated to the single most important factor in new product development; your game.

### OUR PERFORMANCE

Billiards is not an easy game. It can make your heart pound, your palms sweat and your muscles tighten. It tests your concentration, challenges your ability and tries your patience. It makes you want to come back for more. We devote all day, every day designing the best performing pool cues available.

### OUR QUALITY

Craftsmanship is a fine art. Found among the gifted artisans in Menomonee Falls, Wisconsin are the finest wood-makers, cue designers and engineers in the world. McDermott utilizes a process that includes over 150 separate procedures in the construction of each cue. All shafts start from the finest Kiln-dried, hand-selected North American Hard Rock maple and are turned 11 times for stability. All forearms, handles and sleeves are handcrafted from the finest materials and most exotic woods from around the world.

### OUR INVOLVEMENT

McDermott has been a leader in supporting the industry through tournaments and billiard events. If it's important to our customer, it's important to us. Whether it be live events, online promotion or social networking, McDermott strives to continuously support the sport of billiards.

# MCDERMOTT BRANDS

McDermott cues and performance shafts are some of the most recognized products in the billiard industry.

Manufactured in Menomonee Falls, WI, McDermott cues are known for quality construction, exotic woods, intricate inlays and limitless custom options. Leading the industry in technology and craftsmanship with over 100 new models ranging from \$199-\$6500, McDermott remains the top choice for all players. They are proudly made in the U.S.A. and include a lifetime warranty against warpage. Go to page 4 for more information.

## GET NOTICED. BE A STAR.

Star cues are designed, engineered, exclusively distributed and guaranteed for life by McDermott Cue. They feature premium maple and exotic woods mixed with intricate 4-color overlays. Manufactured globally using McDermott's technology, Star cues provide the highest quality cue in its price range. Go to page 42 for more information.

## FEELING LUCKY?

Lucky cues are designed, engineered and exclusively distributed by McDermott Cue. Lucky cues offer a mix of premium maple cues and intricate graphic overlays. These features give you an exceptional value for one of the most solid hitting globally manufactured cues in the industry. Go to page 48 for more information.

## ULTIMATE DURABILITY STRONG PERFORMANCE

Element cues feature McDermott's F2 Dual Fiber Core Technology. F2 Technology utilizes carbon fiber and our resin fiber-polymer to maximize power and stability. Each cue is moisture and warp resistant. Go to page 38 for more information.

## CAN YOU HANDLE THE HEAT?

Wildfire cues start with a premium crafted McDermott cue and then undergo McDermott's advanced wood carving and 3D rotational cutting technology; where we apply intricate artwork to the cue. You can customize your Wildfire cue with your own personalized artwork and pair it with a matching Wildfire case. Go to page 19, 23 and 31 for more information.

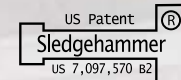

## PROTECT YOUR INVESTMENT

McDermott offers a complete line of billiard cases in all price ranges, colors and styles. Protect your investment with one of McDermott's premium cases. Go to page 56 for more information.

## JUMP AND BREAK LIKE A PRO

Stinger cues feature a patented tenon tip/ferrule technology which transfers the energy from your jump or break to the ball for explosive results. The exclusive phenolic tip provides a larger sweet spot for results that will sting your competition into submission. Stinger cues may be custom ordered with a BCA approved McDermott Big Boy hard leather tip. Go to page 34 for more information.

## DEDICATED TO BREAKING BALLS

McDermott's exclusive break cue is engineered for one thing: breaking balls. The Sledgehammer's patented one-piece phenolic tip and ferrule has been exploding racks for years. The most recognized name in dedicated break cues performs like no other. Go to page 35 for more information.

## THE HIGHEST EVOLUTION IN SHAFT TECHNOLOGY

The Intimidator technology provides the most radial consistent shaft on the market which gives you the freedom to change your power and spin-rate to maximize the speed and accuracy of your shot. The i-Shaft comes in four styles engineered to maximize your power, control and feel. The i-2 comes standard on all 2010/2011 McDermott cues over \$700. Go to page 8 for more information.

## HARDCORE PERFORMANCE

The McDermott G-Core shaft has taken the industry by storm. Its triple-layer design stabilizes the front impact area of the shaft, reducing vibration and minimizing shaft distortion. G-Core's carbon fiber layer increases radial consistency which enhances accuracy and stability. The G-Core shaft comes standard on all 2010/2011 McDermott cues from \$245-\$699. Go to page 10 for more information.

## THEY'RE BACK AND THEY'RE BEAUTIFUL

McDermott Cue is the exclusive distributor of Elephant Balls® of Elephant Balls. Elephant Balls feature unique designs and precision craftsmanship for perfect balance and weight. The Elephant Balls line also offers training balls and accessories to help elevate your game to the next level. Go to page 60 for more information.

## MUST HAVE ACCESSORIES

McDermott's Professional Series accessories offer a complete solution to all of your cue care needs. They offer the same quality as our world-class cues in a convenient package. Go to page 62 for more information.

# McDermott Gallery Collection

## THE BEST OF THE BEST

Here at McDermott we understand what it takes to manufacture a top quality performance pool cue. We also have a deep passion for creating some of the world's most respected and sought after custom cues. Our Gallery Collection celebrates the originality of custom, investment-grade collectible cues. Each cue is a work of art. These cues showcase our craftsmanship, creativity and desire to build the finest cues using the most exotic materials from around the world. The Gallery Collection has three series that are categorized by their edition size.

### Masterpiece Edition Size: 1-10

It takes a true work of art to be called a Masterpiece. McDermott's Masterpiece cues live up to the name. These unique works of art are adorned with the rarest materials in the world, like real ivory, gemstone inlays and precious metals. Made by the most gifted cue artisans in the world, the Masterpiece cues define the next generation of American art. Their small edition size makes them the most collectible McDermotts on the market. Masterpiece cues come with a McDermott Certificate of Authenticity.

### Showcase Edition Size: 11-50

McDermott's Showcase cues are painstakingly handcrafted with the finest woods and exotic materials. Precision detailing and intricate inlays result in a true work of art. Each cue exhibits McDermott's passion for building custom cues that are not only worthy of being on display at a museum, but built with same technology to run the table. Showcase cues come with a McDermott Certificate of Authenticity.

### Limited Edition Size: 51-250

McDermott's Limited cues offer the outstanding performance, precision inlays and exceptional craftsmanship expected from a McDermott. They possess the beauty and elegance that far exceeds the standard of high end custom cues. These cues are highly sought after by collectors and cue aficionados. Limited cues come with a McDermott Certificate of Authenticity.

### Jim McDermott Cue Of The Year

#### LEGENDARY CUES INSPIRED BY A CUE MAKING LEGEND

The Jim McDermott Cue of the Year raises the bar of excellence in custom pool cues. The Cue of the Year uses the rarest materials from around the world that are combined with exotic woods that have been in McDermott's Private Reserve Wood Collection for over 20 years. Featured in the Showcase and Limited Series, the Jim McDermott Cue of the Year is known for selling out fast. The Showcase Special Edition Cue of the Year typically sells out within days of being released. These cues are highly sought after by cue collectors and come with a McDermott Certificate of Authenticity which is personally signed by Jim McDermott.

## Masterpiece Series

Six high-end cues hand crafted by the most skilled artisans in the industry. The Masterpiece Series features six cues that share the same design, but utilize different rare materials: ivory, turquoise and silver. This makes them unique individual works of art. Over 200 inlays and two i-Shafts make the Masterpiece cues highly collectible for any serious cue aficionado and distinguished collector. Each cue is a one-of-a-kind Masterpiece.

## Masterpiece Intimidator

### *The Ultimate Fantasy Cue*

The Intimidator is the most expensive pool cue in the world and raises the bar to a whole new level of prestige. This sensational cue is a three-dimensional piece of art that features four bladed wings that can rip a table to shreds. The focal point is a Genuine Italian Obsidian Gemstone Sphere. Our designers started out with a 82-pound solid piece of stainless steel. After finely machining this piece for over a year, the result was an amazing 9½ pound masterpiece.

#### Cue Specs:

- Total hours to create: 1862 hours of hand engraving, hand etching and hand machining
- Overall length: 63" from Obsidian Sphere to Leather Tip
- Weight: 9½ pounds
- Wingspan of large blade: 9"
  - Winged blades: inlaid with 24K Gold, Deep Relief, French Grey Scroll Engraving
- Butt Construction: 46 individual parts, including Genuine Italian Obsidian
- Inlays: over 210 separate inlays, including 112 hand polished Precious Metal inlays on the handle
- Exposed Blade: 48" on the large blades; 13" on the smaller blades

# INTIMIDATOR

I-SHAFTS

**MORE POWER. MORE CONTROL. MORE FEEL.**

## THE HIGHEST EVOLUTION IN SHAFT TECHNOLOGY

McDermott Intimidator i-Shaft System gives players the freedom to change power and spin-rate to maximize the speed and accuracy of shots in a way never before possible.

The patented Intimidator i-Shaft system has identified the variable characteristics required in your game (Power, Control and Feel). Utilizing our proprietary Intimidator Carbon Energy (ICE) technology, we've designed the industry's most radial consistent shaft that will maintain accuracy at all speeds.

## THE ISOLATOR VIBRATION DAMPENER TECHNOLOGY.

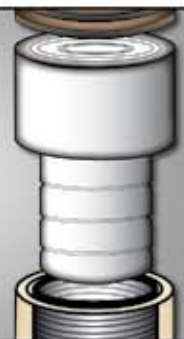

The Isolator™ is a vibration dampener with a unique design that solidifies the shaft core. Reducing shaft vibrations gives the player greater stability.

## GREATER STABILITY EQUALS GREATER CONTROL .

The Isolator™ technology makes for the most stable shaft on the market. The same player with the same stroke is able to enhance their performance dramatically.

## TENON TIP TECHNOLOGY

The i-Shaft's Tenon Tip Technology transfers energy from the tip into the carbon fiber core producing a solid hit that maximizes the speed and accuracy of your shot.

## i-SHAFT CONSTRUCTION

1. Unidirectional Fibers
2. High strength composite fibers for exceptional durability and hoop-strength
3. Ultra small diameter and unidirectional carbon fiber core

## PREMIUM URETHANE JOINT INSERT

The ultra-durable precision milled urethane joint insert ensures a consistent joint fit to minimize vibration.  
\*3/8"-10 joints only.

## The McDermott-Kamui™ Tip Advantage

The McDermott-Kamui™ tip consists of the highest quality Japanese pigskin leather in the world. It has a higher porosity, allowing the tip to hold its shape and chalk more effectively. The enhanced cue ball grip results in more control and accuracy with less force.

### PERFORMANCE BENEFITS:

**More Control:** Increased spin on the cue ball means increased control of your play. Kamui™ tips create more ball spin with less force.

**More Accuracy:** The Kamui™ tips limit squirt and deflection by gripping the cue ball. Your shots will be more accurate.

**Less Mushroom:** Kamui™ tips maintain a high porosity which resists tip shape distortion.

**More Chalk:** Kamui™ tips hold more chalk, because they have a higher porosity. More chalk means less miscues.

### THE TIPS:

#### McDermott-Kamui™ Soft:

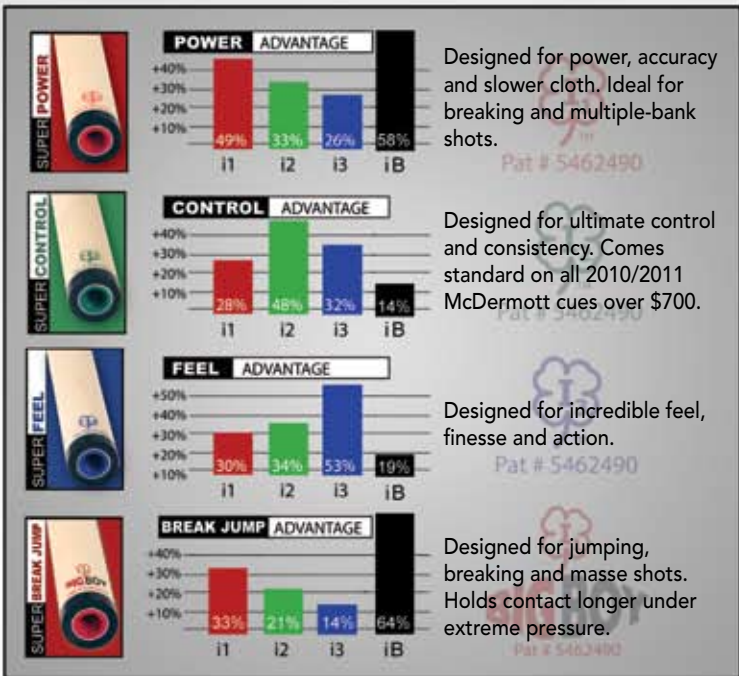

Standard on McDermott i-3 shaft. Designed for players who thrive on maximum ball spin.

#### McDermott-Kamui™ Medium Soft:

Standard on the McDermott i-2 shaft. Designed for players who crave extreme ball control with moderate ball spin. Comes standard on all 2010/2011 McDermott cues over \$700.

#### McDermott-Kamui™ Hard:

Standard on the McDermott i-1 shaft. Designed for players that require substantial ball movement for positioning.

Designed for power, accuracy and slower cloth. Ideal for breaking and multiple-bank shots.

Designed for ultimate control and consistency. Comes standard on all 2010/2011 McDermott cues over \$700.

Designed for incredible feel, finesse and action.

Designed for jumping, breaking and masse shots. Holds contact longer under extreme pressure.

i-1 Super Power  
 • McDermott-Kamui™ Hard Tip • 13 mm • 6"-8" Traditional Taper  
 (3/8"-10 joint) \$249

i-2 Super Control  
 • McDermott-Kamui™ Medium Soft Tip • 12.75 mm • 10"-12" Pro Taper

 • Impregnated Hard Leather Big Boy Tip • Full 13mm • Short Break/Jump Taper • Legal in All Leagues/Tournaments  
 (3/8"-10 joint) \$249

**MCDERMOTT TECHNOLOGY  
AND INNOVATION.  
ANOTHER BREAKTHROUGH.**

**HARDCORE PERFORMANCE**

McDermott Cue leads the way again in high performance shaft technology. Being on the leading edge of innovation has allowed McDermott Cue to be the preferred choice of billiard players worldwide.

The G-Core Shaft Technology significantly stabilizes the shaft through the use of a three layer core positioned in the front impact area of the shaft. G-Core technology increases shaft stability by 65%, promoting increased accuracy with enhanced radial consistency. The G-Core also utilizes our proprietary CT Tenon technology: a carbon fiber ferrule core which results in greater strength, efficiency and precision.

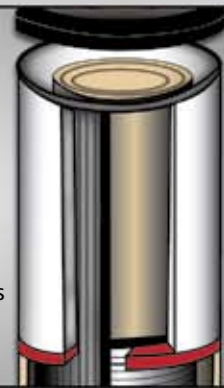

**EVEREST TIP BY TIGER**

The Everest tip shapes like a hard tip, hits like a medium, but has the control of a soft tip. It includes a red warning layer that indicates when it needs replacement.

**CT TECHNOLOGY**

Carbon fiber extends through the shaft wood and into the ferrule with an additional dampening device to reduce vibration. This results in a stronger ferrule assembly with maximum impact properties and enhanced feedback.

**TRIPLE LAYER DESIGN**

The G-Core's triple layer design stabilizes the front impact area of the shaft, reducing vibration and minimizing shaft distortion. Its carbon fiber layer increases radial consistency, promoting enhanced accuracy and stability.

# facebook BUZZ

G-Core shafts come standard on all 2010/2011 McDermott cues \$245-\$699. See pages 13-16 for all cue models. A \$149 added value!

Here's what people are saying about the G-Core shaft on Facebook:

"McDermott's G-Core shaft is a value beyond words. When I first began using one, my shot-making increased 15% or more. McDermott brands give me the confidence in shot-making I couldn't get anywhere else."

"Your best with a standard shaft will never compare to your best with a G-Core Shaft."

"Buy a G-Core shaft and expect immediate improvement. It reduces the variables like deflection and shaft distortion in order to increase your shot repertoire and confidence."

"I have absolutely fallen in love with the precision, strength and efficiency of this shaft"

"Comparing this shaft to a standard shaft leaves only a cliché: "There is no comparison."

"The new G-Core shaft gives a solid hit without compromising the smooth feel. It is made by the best in the world."

"The G-Core shaft gives me a more consistent shot, time and time again."

"Get a G-Core Shaft now and stop asking to use mine."

"Hit a ball with the G-Core shaft and you'll feel the confidence of knowing how stable and accurate each shot will be."

"Dear McDermott, thank you for creating the G-core shaft, I just love it."

Handcrafted Cues

## WHAT MAKES A MCDERMOTT THE BEST?

### THE WOOD:

McDermott hand selects only the finest woods from around the globe (North America, South America, Central America and West Africa).

The wood is aged for 18 to 24 months by alternately storing and machining each piece three times. This allows the perfect amount of moisture to escape, ensuring absolute straightness.

### THE SHAFT:

#### G-CORE SHAFT

Billiard's leading innovator has unveiled the next evolution in high performance shafts – the new G-Core shaft. Its triple layer design stabilizes the front impact area of the shaft, reducing vibration and minimizing shaft distortion. G-Core's carbon fiber layer increases radial consistency, promoting enhanced accuracy and stability. This establishes a new standard for premium shafts.

#### i-2 SHAFT

The patented i-2 shaft is standard on all 2010/2011 McDermott cues over \$700. Our proprietary Intimidator Carbon Energy (ICE) technology provides unparalleled radial consistency. This ensures precision shots and dependable results.

### THE JOINT:

McDermott's signature 3/8"-10 wood-to-wood and patented Quick Release (QR) joints provide consistent surface contact throughout the cue, delivering maximum feel and the

most solid hit in the industry.

### THE CONSTRUCTION:

McDermott's "Tri-Core" butt construction promotes straightness over the life of the cue and provides optimal balance. Inlays and rings are precision milled to within .001" and hand-glued to ensure the perfect fit.

### THE TIP:

#### Everest Tips (G-Core Shafts)

Everest Tips by Tiger are made from the finest quality pigskin in the world. Each tip is individually tested for consistency, hardness and quality; featuring a red warning layer that alerts you for tip replacement.

#### McDermott-Kamui™ Tips (i-Shafts)

The McDermott-Kamui™ tip consists of the highest quality Japanese pigskin leather in the world. It has a higher porosity, allowing the tip to hold its shape and chalk more effectively. The enhanced cue ball grip results in more control and accuracy with less force.

### THE FERRULE:

All McDermott shafts use premium

quality ferrules. The i-Shaft's Ivorine III and the G-Core's Juma ferrules maximize the point of impact between the shaft and tip, providing increased accuracy and consistent results.

### THE WRAP:

#### GENUINE IRISH LINEN

Our genuine imported Irish linen wrap is tightly wound, double-pressed, and polished for a perfect fit and smooth feel. The Irish linen absorbs hand moisture to ensure a comfortable grip.

#### PREMIUM ITALIAN LEATHER

McDermott's premium Italian leather wraps offer the durability, consistency and comfort that can only be found in leather.

### THE FINISH:

McDermott cues are hand-stained with our exclusive imported European "Organic-Pigment" stain made from the finest pigments in the world. Superior to the synthetic stains generally used in the industry, it's notable for uniform saturation of the wood and color consistency. Five coats of high-luster urethane protect the cue and enhance the color.

## TECHNICAL SPECIFICATIONS

#### TAPER 10"-12" Pro

**SHAFT** i-Shaft, G-Core or Standard McDermott

**TIP** Kamui™, Everest, Moori or Triangle

**JOINT COLLAR** High-tech urethane or stainless steel, hand-glued and screwed

**BUTT PLATE** Impact Resistant High-tech urethane

**JOINT** 3/8"-10 wood-to-wood or patented QR stainless steel Quick Release

**FINISH** Ultra-violet electrostatic 5-coat finish

**WOOD TYPES** Over 20 premium exotic woods from around the world

#### EXOTIC INLAY MATERIALS

Gold, silver, pewter, turquoise, mother of pearl

**WRAPS** Double-pressed & sealed Irish linen or premium leather

**INLAYS** Handcrafted precision milled to .001"

# Double-Wash Stains

## MCDERMOTT TRADITIONAL ALL-MAPLE SHAFTS

The Traditional cues feature McDermott's classic all-maple standard shaft. Dedicated to the players who've built their game around the hit and feel of McDermott's all-maple shaft. The cues are complimented by the simplicity of the maple butt, enhanced with McDermott's premium stain and finishing process. GS07-GS12 feature our unique "double-wash" stain process which accentuates the Birdseye maple and stunning wood grain.

# 3 Options To Custom Build Your Cue

## OPTION 1

### MCDERMOTT TRADITIONAL

Start with a blank McDermott cue... your canvas. Decide what you want and how you want it. It doesn't get more custom than that. The combinations are nearly endless! What will YOUR cue look like? Do you think you've got what it takes to design your own cue.

- McDermott Traditional cue with maple shaft comes with your choice of paint or stain color and Irish linen wrap: **\$225**
- McDermott Traditional cue with G-Core shaft: **\$375**
- McDermott Traditional cue with i-Shaft: **\$475**
  - Leather wrap: **+\$60**
  - Quick Release joint: **+\$125**
  - Engraving: **+\$20**
  - Add artwork: **+\$25 for each transfer**

- Pick your color.**
- Choose your wrap.**
- Adjust your weight.**
- Specify your tip diameter.**
- Choose your joint.**
- Engrave your butt plate.**
- Add your cue transfer art.**

### STANDARD MCDERMOTT PAINTS:

### STANDARD MCDERMOTT STAINS:

### DOUBLE WASH AND CUSTOM MIXED COLORS:

### GENUINE IRISH LINEN WRAPS:

### LEATHER OPTIONS: ADD \$60

### JOINT OPTIONS:

### ENGRAVING:

### CUE WEIGHT:

### ADD ARTWORK:

Add transfer artwork to the forearm and sleeve of your custom cue. See pages 32 and 33 for transfer art options and instructions on how to submit your own original work. Add \$25 for each transfer.

## OPTION 2 WILDFIRE CUSTOMS

It starts with an American made Wildfire cue and your vision. Send us your artwork and we'll use our advanced wood carving and 3-Dimensional rotational cutting technology to place it on our popular Wildfire cues. Just pick out which exotic wood Wildfire cue you want (page 19), send us your original art and we'll take care of the rest!

- Select G317, G318, G319 or G320  
Exotic Wood Wildfire: **\$399**
- Your custom art\*: **+\$200**

\*Art must be at least 3" h x 1.5" w at 300dpi. One-color sketches and clip art style graphics work best with engraving process. Email sales@mcdermottcue.com with any questions.

**WILD FIRE**  
CUSTOMS

• Birdseye Maple • Cocobolo • Ivory • Green Malachite

• Birdseye Maple • Ebony • Ivory • Turquoise

## OPTION 3 SELECT EXOTIC INLAY MATERIALS

Do you think one of our cues would look better with bocote instead of cocobolo; green burl instead of turquoise; pewter instead of brass? Are you looking to have a cue built that's totally unique to you? Now you can. You call the shots. You choose the materials. You make it yours. Custom pick from McDermott's extensive list of exotic woods and materials to custom build a cue that is exclusive to you.

- Select any McDermott catalog cue: **Price Listed**
- Custom inlay materials: **+\$300\***

\*Pewter, brass and abalone are subject to higher fees, contact a McDermott Sales Representative for an estimate.

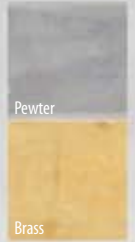

### EXOTIC WOODS

### EXOTIC MATERIALS

### METALS

### URETHANES

### CUE ART TRANSFER

Select artwork to add to your custom built McDermott cue. These transfers can be applied to any stained or painted cue.

- McDermott Traditional cue with maple shaft: **\$225**
- With G-Core shaft: **\$375**
- With i-Shaft: **\$475**
- Leather wrap: **+\$60**
- Quick Release joint: **+\$125**
- Engraving: **+\$20**
- Add artwork: **+\$25 for each transfer**

### CUSTOM TRANSFERS

Don't see art that defines your style? Send us your own original artwork or graphics and we can apply it to any white pearl cue. Not available on stained or painted cues.

### DIMENSIONS

Forearm Size:  
10" x 2.25" @ 300dpi

Sleeve Size:  
2.25" x 3.75" @ 300dpi

Original artwork is subject to a \$75 fee. Files must be supplied electronically as jpg or tif format at high-resolution. Email files to [sales@mcdermottcue.com](mailto:sales@mcdermottcue.com)

**CUSTOM ORDER WITH A BCA APPROVED BIG BOY HARD LEATHER TIP: +\$30**

**NEW! MCDERMOTT JUMP TRAINING BALL. PAGE 64**

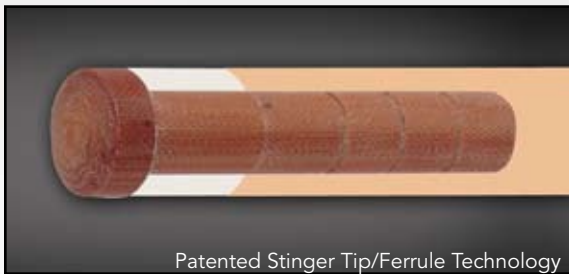

Stinger Jump/Break Cues  
**THERE'S A REASON TOP PROS PLAY WITH STINGER TECHNOLOGY. BY CHOICE.**

- Jump Easier
- Break Harder
- Shoot More Accurate
- Play with Control

**PATENTED TIP/FERRULE TECHNOLOGY:**

The tip features a "stinger" stem that projects downward through a hole in the center of the ferrule. On impact, the shock of the hit goes to the center of the tip and down the stinger stem, transmitting the impact directly to the center of the shaft. This results in a very efficient, precise hit.

Patented Stinger Tip/Ferrule Technology

**THE ENORMOUS "SWEET SPOT"**

The Stinger technology takes the hit energy to the center of the shaft, regardless of where you hit the tip. Our tip can be much flatter than typical break cues. The flatter profile causes the Stinger tip to have a huge "sweet spot". You can miss-hit and still get the result you intended.

\*Stinger cues are designed, engineered and distributed exclusively by McDermott Cue Mfg.

- Maple forearm • 4 Rosewood points
- Rosewood handle with Maple butt plate
- 3/8"-10 main joint with phenolic insert
- QR jump joint • Patented Stinger shaft with phenolic tip

US Patent <sup>®</sup>  
**Sledgehammer**  
US 7,097,570 B2

## DEDICATED TO BREAKING BALLS

Sledgehammer is one of the most recognized and respected names in dedicated break cues. The patented one-piece phenolic tip and ferrule transfers energy unlike any other tip on the market. This gives you insane power and superior accuracy. Known to many as the hardest and most solid hitting break cue on the market, the Sledgehammer simply destroys a rack leaving your competition speechless.

*The Patented One-Piece Sledgehammer Phenolic Tip/Ferrule*

• Maple Forearm • 13mm • Dedicated Break Cue  
• Patented One-Piece Phenolic Tip and Ferrule • Extended Irish linen wrap  
• Aluminum 3/8"-10 Joint Pin • Strong Tapered Butt & Shaft

Handcrafted Cues

Professional Pool Cues  
 Designed Especially For Children

## POOL PRODIGY

GREAT FOR:

- Kids who want proper equipment
- Players who demand quality and performance
- Pool tableowners with small rooms or obstacles

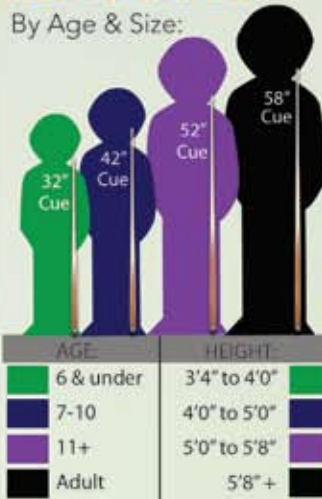

Keith O'Dell Jr. is McDermott's youngest sponsored player. At 2 years old, he took the internet by storm and hasn't stopped. He's been featured internationally on network news and talk shows. We wish Keith a long successful career!

**THE CUE THAT GROWS WITH YOU.**  
 The Lifetime sectional cue lets you adjust to three different lengths. You'll never outgrow it!

### SIZING CHART

By Age & Size:

- 3/8"-10 joint • Irish linen wrap • Stainless steel collar/butt plate • Includes matching poster

**ZOR1**  
\$69

For decades, Zorro® has entertained audiences with his powerful presence. His name is synonymous with his mask, sword, whip and trademark "Z". Zorro® outwits his adversaries with agility and athleticism, cleverness and expert use of his rapier's blade. A classic heroic, yet romantic hero who is dark, mysterious, handsome, strong, yet tender and compassionate, Zorro® defends the oppressed and rescues those in need - asking only for justice.

Zorro® poster comes with ZOR1 and ZOR2 cues.

**ZORRO**®

Element cues utilize multiple strands of thin carbon fiber, overlapped and reinforced with our resin fiber-polymer. This combination makes them incredibly strong for their weight, while resisting warpage and moisture. The high strength-to-weight ratio provides optimal balance while maximizing the power and stability of your stroke.

# element

## F2 DUAL FIBER CORE TECHNOLOGY

Element's stainless steel butt plate provides ultimate durability and features an optional adjustable weight system to quickly and easily customize the cue's weight.

The F2 Technology uses strands of carbon fiber reinforced our resin fiber-polymer. A vibration dampening core provides enhanced feedback and superior feel.

Element's 3/8"-10 stainless steel joint pin provides ultimate surface-to-surface contact between the butt and shaft for a solid hit.

The Element shaft utilizes F2 Technology and is coated with a special polymer for a low resistance smooth finish.

\*Element cues are designed, engineered and exclusively distributed by McDermott Cue Mfg.

**ADJUSTABLE WEIGHT SYSTEM:**

All Element cues come standard 18oz, and equipped to accommodate Element's adjustable weight bolt system. Each weight section adds 1oz to the cue capable of weighing 21oz. Check out our accessories to get your Element cue the perfect weight for your game.

1000

# GET NOTICED. BE A STAR.

Smart Micro Nano Technology is a description of activities at the level of atoms and molecules that have application in the real world. A nanometer is a billionth of a meter, which is about 1/800000 of the diameter of human hair. Nano Technology, when used in grips, changes the cell construction which instantly improves the feel and playability.

# Warranty & Lifetime Maintenance

## MCDERMOTT LIFETIME WARRANTY

When it comes to a quality product and superior customer service, McDermott sets the standard with the McDermott New Cue Lifetime Warranty, the premier warranty in the industry. The McDermott Lifetime Warranty provides unparalleled coverage, and demonstrates not only our confidence in McDermott cues, but also our ongoing commitment to every McDermott customer.

### LIFETIME WARRANTY AGAINST WARPAGE AND DEFECTS

McDermott Handcrafted Cues warrants its pool cues purchased from an authorized McDermott Cue retailer or distributor to be free of defects in material and workmanship, including warpage, for the lifetime of the product. McDermott will, without charge to the consumer, repair or replace your cue, provided that the claim is accompanied by a copy of the original sales receipt from an authorized McDermott dealer. McDermott does not warrant its product against damage caused by third parties. This warranty does not cover replaceable items such as tip, finish, and wrap. McDermott will fix such items, however, for a fee. In addition, McDermott, at its sole discretion, may void this warranty if there is evidence of abuse or mishandling. To obtain warranty service on a McDermott product, return the product to an authorized McDermott dealer or directly to McDermott **ALONG WITH A COPY OF YOUR ORIGINAL SALES RECEIPT**. To determine the nearest McDermott authorized retailer or dealer, check out our online dealer listing or contact McDermott directly.

Call toll-free 1-800-666-2283.

**DISCLAIMER:** This warranty is in lieu of all other express warranties. McDermott disclaims all warranties for products that are purchased from sellers other than authorized retailers or distributors.

To take advantage of McDermott's Lifetime Warranty, please visit [www.mcdermottcue.com/repairs](http://www.mcdermottcue.com/repairs)

## WARRANTY SUMMARY

When it comes to a quality product and superior customer service, McDermott sets the standard. Our unparalleled coverage demonstrates not only our confidence in our cues, but also our ongoing commitment to you.

- **McDermott Original Warranty**  
Lifetime Warranty covers manufacturing defects; including warpage
- **Star Warranty**  
Lifetime Warranty covers manufacturing defects
- **Element Warranty**  
Lifetime Warranty covers manufacturing defects
- **Lucky Warranty**  
Three Year Warranty covers manufacturing defects
- For complete information, or to register you cue please visit [www.mcdermottcue.com](http://www.mcdermottcue.com)

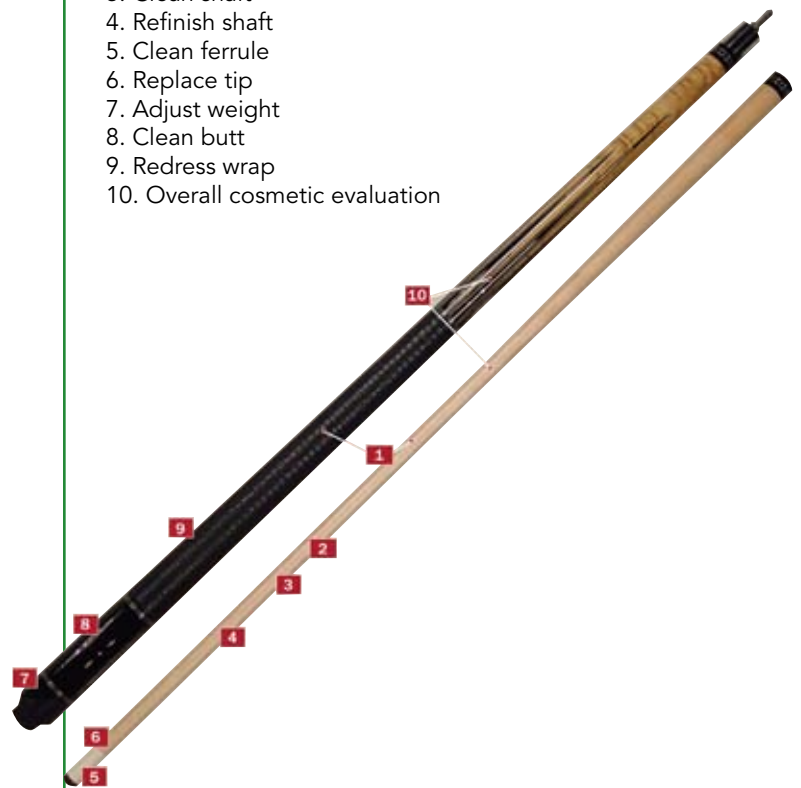

## MCDERMOTT LIFETIME MAINTENANCE

Maintenance is one of many hidden costs to consider when you're looking at a cue's price. Fortunately, McDermott offers the most comprehensive maintenance program ever. Just about anything your McDermott cue might need replaced, checked or cleaned is covered under our exclusive Lifetime Maintenance program for life. This will save you money. McDermott's total commitment to your satisfaction doesn't end when you take your new McDermott home. It only begins there.

### 10 POINT INSPECTION PROCESS

McDermott craftsmen check for details even the most careful player may not notice. Joints are checked, cosmetics evaluated, weights adjusted, and every minor detail inspected.

1. Check structural integrity
2. Resand shaft
3. Clean shaft
4. Refinish shaft
5. Clean ferrule
6. Replace tip
7. Adjust weight
8. Clean butt
9. Redress wrap
10. Overall cosmetic evaluation

To take advantage of McDermott's Lifetime Maintenance Plan, please visit [www.mcdermottcue.com/maintenance](http://www.mcdermottcue.com/maintenance)
